

REHABILITATION AT THE GREEN HOUSE[®] HOMES

*Green Hill*SM

THE NEWEST MODEL OF CARE, TO OPTIMIZE REHABILITATION

RESTORE, RECLAIM, REBUILD

The Green Hill clinical support team creates an individualized treatment plan, designed to optimize recovery, maximize functional capacity and reestablish independence. Our specialized nursing team, trained in geriatrics, provides 24/7 skilled care. And since care is best managed with consistency, services can continue through Green Hill at Home.

PHYSICAL THERAPY

Regain lost strength and mobility, enhance flexibility and range of motion, to help prevent potential falls and other safety issues.

OCCUPATIONAL THERAPY

Redevelop, improve and maintain skills associated with day-to-day activities such as dressing, bathing or eating. Enhance independence lost due to an injury or illness.

SPEECH AND LANGUAGE PATHOLOGY

Restore speech and language skills, swallowing, and socialization following surgery, a stroke or accident to reclaim communication.

RADICAL, REMARKABLE, REVOLUTIONARY

PRIVACY

Each Green HouseSM Home includes ten private bedrooms, each with bathroom and shower. Rooms are well-appointed with internet access, a flat screen television and modern furnishings.

MANAGEABILITY

Private bedrooms open to a comfortable living room, dining room and kitchen, all within a manageable, open floor plan and accessible to outdoor porch, patio and lawn.

DINING

A full working kitchen at the center of the house provides delicious meals served family-style at a single dining table.

Reestablish your independence now.
