

SUBACUTE REHABILITATION AT GREEN HILL

RESULTS-DRIVEN SUPPORT

Subacute Rehabilitation is a unique kind of care that's as friendly as it is advanced. When you, or someone you love, comes to Green Hill for rehab, expect to find what you need and deserve — true care.

At Green Hill, we offer two unique rehabilitation environments — community living in The Legacy, or the intimate, neighborhood setting of our innovative Green House[®] Homes. Our professional therapists tailor services for people who've lost strength and mobility due to illness, trauma or surgery, usually following a hospitalization. With a results-driven, personalized plan for recovery that includes everything from strength training to developing new life skills and identifying supportive home services, you'll be back on your feet in no time.

SUBACUTE REHABILITATION SERVICES INCLUDE:

- ▶ Physical therapy
- ▶ Occupational therapy
- ▶ Speech therapy
- ▶ Dysphagia VitalStim therapy
- ▶ Post-stroke rehab
- ▶ Joint replacement rehab
- ▶ Orthopedic rehab
- ▶ Pulmonary, cardiac and respiratory rehab
- ▶ Prosthetic and orthotic management
- ▶ Custom wheelchair evaluation
- ▶ Fitness programs

Rehabilitation services are available to residents of Green Hill, and through direct admission.
